Kerio**Connect**

The Better Email Alternative to Exchange Online, Gmail and Office 365
Kerio Connect Cloud delivers business-class email, shared calendars and contacts, video conferencing and much more—as a no-hassle, pay-as-you-go hosted cloud service, powered by Kerio Connect.

- ✓ **Business class email**, with custom domain name, shared calendars and scheduling, contact management, tasks, notes, public and shared folders, instant messaging, and video/audio conferencing.

- ✓ **User access** from a broad range of devices and email clients.

- ✓ **Direct push synchronization** to keep data current across all devices and ready for offline access.

- ✓ **Secure**, managed cloud service providing the utmost in reliability, scalability, disaster recovery and performance.

Kerio Connect Cloud simplifies IT management by eliminating the need to deploy and manage an on-premises email solution. Intuitive and easy to use, Kerio Connect Cloud delivers the level of security and support you expect from a professional email service. And Kerio Connect Cloud layers comfortably on top of your current IT environment without sacrificing functionality or requiring end-users to make unwanted changes to the way they work.

Implement Easily in Any IT Environment

- ▪ Offer the flexibility and choice business users want. Support each user's choice of mobile devices and standards-based email clients.

- ▪ Enjoy full-featured web mail from modern browsers via the Kerio Connect client.

- ▪ Enable user self-setup in seconds with Kerio Connect auto-configuration tools. Kerio Cloud Solution Partners make it easy for you to migrate from your current email solution.
Deliver Full-featured Business-Class Email & More

- ▪ Use your own domain name in email addresses (i.e., joe@yourcompany.com).

- ▪ Email is integrated with shared calendars and scheduling, contacts management, tasks, notes, shared and public folders, instant messaging, and audio & video conferencing.

Streamline Team Collaboration

- Organize contacts into as many groups as you wish and share them with co-workers.

- Create tasks and notes, sort them into groups, assign tasks to and share notes with colleagues.

- Schedule events, check attendee availability, reserve conference rooms and other shared resources.

- Create recurring events and receive meeting reminders in your inbox.

- Enjoy time-saving features like full-text search, address auto-complete, quick preview of attachments and draft auto-save.
Secure Your Data, Protect Your Privacy

- Protect your network from viruses, hackers, spyware and adware with the integrated Sophos Antivirus engine.

- Support digitally signed and encrypted email.

- All your data remains private, and is never used for ad targeting or product development.

Rock-Solid Infrastructure, Managed by World-Class Experts

- Enjoy peace of mind with a professionally managed, service that offers infinite and immediate scalability, high availability, rapid failover, and cost-effective storage.

- Say goodbye to business disruptions caused by IT issues. Kerio's partner network of world-class experts handle uptime concerns, disaster recovery planning, product upgrades, and security issues on your behalf.

- Resolve issues quickly with 24X7 service and support.
